

**Type: Random order task**

**Running round in circles - Enterprise Day 5**

Mandatory points at the beginning: North Hill

Random points (Maximum: 8): North Hill, North Hill, North Hill

Mandatory points at the end: North Hill

All standard scoring rules apply except that CLS / HHL are not required for start or finish and the finish bonus is reduced to 20 points. You must have crossed the first 10km circle to be entitled to the finish bonus. BGA TPs (other than NHL) are not relevant.

There are an (almost!) infinite number of circles around North Hill (NHL) at 10km intervals. Each time you cross a circle (different from the one you crossed last time) you score 10km @ 1 pt/km. You may reverse direction at a circle as often as you wish. There is no value in returning to NHL except to finish.

Score 10 bonus pts for each new circle crossed.

AIRSPACE - No significant NOTAMS within 50NM of North Hill. Dunkeswell and Exeter rules apply. Yeovilton will be busy with aircraft holding at Merryfield - talk to them if anywhere near!
